**EXAMINER'S AMENDMENT / COMMENT**

1. An examiner's amendment/comment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.
  
2. The following changes to the drawings have been examined by the examiner: In Fig. 5, step 525 is suggested to be amended, and step 530 is not complete. In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

***Allowable Subject Matter***

3. The following is an examiner's statement of reasons for allowance: The prior art of record does not teach the limitations in at least the independent claims 1, 13, and 17. The prior art of record does not specifically teach at least setting a delete date associated with the thread to a predetermined value wherein setting the delete date to the predetermined value comprises: determining a type of the thread; if the thread is a first type then setting the delete date of the thread to a first predefined value; and if the thread is a second type then setting the delete date of the thread to a second predefined value, wherein the first predefined value is less than the second predefined value, in combination with the remainder of the claimed useful post user ratings. Bates and Warner, in particular, do not teach different types of threads nor having different

initial predetermined delete dates of threads based on different types of threads. The remaining prior art of record further fails to teach or make obvious of such limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Knight et al, McCarthy et al, Nielson, and Summers are cited for disclosing pertinent information related to the claimed invention.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to GREGORY G. TODD whose telephone number is (571)272-4011. The examiner can normally be reached on Monday - Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ario Etienne can be reached on (571)272-4001. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
